

Declaration of Use and Decontamination

1. Purpose

Protecting our employees and the environment from the harmful effects of handling hazardous substances is part of company policy at RITAG.

For this reason, if any valve is returned to RITAG, it must be accompanied by this declaration, describing the operating conditions it was exposed and confirming that the proper decontamination procedure has been followed. We reserve the right to return any valve that is received without this declaration to the sender without repair, at his own expense.

2. Sender's details

Company:	<input type="text"/>	Contact:	<input type="text"/>
Street:	<input type="text"/>	Telephone:	<input type="text"/>
